1. First reference describes Subject as a "ZIPPER" who has produced political intelligence for ZIPPER from the Telegraph I. S. net. The COM ZIPPER file contains traces on Subject, but describes his relationship with ZIPPER only as "person known." We would be most anxious to determine this exact relationship and would appreciate your checking into the matter closely.

2. For your information, SACOF P-1045 (not sent to Pullach or Berlin) states that Subject is still operational interest to CIA, nothing further is known of this relationship.
